**RE: REGISTRATION ON THE ERP SYSTEM**

This is to ask all those students who did not register in the ERP during the last registration exercise to visit the University Admissions and ICT offices in main campus with their admission letters and student IDs to enable them capture your details in the ERP system. This will enable you to access university services.

This exercise is open for the next two weeks up to 22<sup>nd</sup> October 2018.

Thereafter, only students registered in the ERP will have access to university services.

Thank you.
